

关键数据
Key numbers

- 遗产地记录鸟类 140 余种
- 长海全域记录鸟类 255 种
- 迁徙季水鸟超 10 万只
- 黄嘴白鹭成鸟超 2500 只（矾坨子超 1500 只）
- 黑脸琵鹭 2026 年近 60 只
- 海草床：蓝色碳汇的重要组成

- Over 140 bird species recorded within the heritage property
- 255 bird species across Changhai County
- Over 100,000 waterbirds during migration season
- Over 2,500 adult Chinese Egrets (over 1,500 at Fantuozi)
- Nearly 60 Black-faced Spoonbills in 2026
- Seagrass beds: a key component of blue carbon sinks

守护候鸟
就是守护气候未来

PROTECT MIGRATORY BIRDS,
PROTECT A LIVEABLE CLIMATE

长山群岛：迁飞路上的关键驿站

Changhai Archipelago: a vital stopover on the East Asian–Australasian Flyway.

2026年7月27日，长山群岛候鸟栖息地以边界调整方式正式列入《世界遗产名录》，成为**中国黄（渤）海候鸟栖息地**世界自然遗产的组成部分。

On 27 July 2026, the Changhai Archipelago Migratory Bird Habitat was inscribed on the World Heritage List through a minor boundary modification, becoming part of the World Natural Heritage property, the Migratory Bird Sanctuaries along the Coast of the Yellow Sea–Bohai Gulf of China.

组成部分：

- 广鹿岛矾坨子——黄嘴白鹭全球核心繁殖地
- 格仙岛头坨子——黑脸琵鹭与猛禽的家园
- 大耗子岛——水鸟越冬的森林岛
- 蛇蛸岛南部岩礁带——海鸟与斑海豹的共享栖息地

Main components:

- Fantuozi, Guanglu Island — global core breeding ground of the Chinese Egret
- Toutuozi, Gexian Island — home of the Black-faced Spoonbill and raptors
- Dahaodao Island — forested island for wintering waterbirds
- The southern rocky shore zone of Bashao Island — shared habitat for seabirds and the Western Pacific spotted seal

邀请你：成为全球青年气候守护站

Join us: become a Youth Climate Guardian Station

气候变化正在改变候鸟的迁飞时间、路线与栖息地质量。我们邀请全球青年组织在各自国家的迁飞区建立守护站，按统一标准记录候鸟动态，共享气候变化的生态观察。

Climate change is altering the timing, routes and habitat quality of migratory birds. We invite youth organisations worldwide to establish guardian stations along the flyways in their own countries, record bird movements to shared standards, and exchange observations of climate-driven ecological change.

2027—2028 年目标：在东亚—澳大利西亚候鸟迁飞区建立至少 5 个伙伴守护站。
守护站标准：**科学、真实、可持续。**

2027–2028 goal: at least 5 partner guardian stations across the East Asian–Australasian Flyway.
Station standard: **Science, Truth, Sustainability.**

青年在行动：六条行动线

Youth in action: six action lines

01 **志愿协同**—首批10人核心青年志愿队
Volunteer coordination: a first cohort of 10 core youth volunteers

02 **公民科学观测**—每周候鸟观测，数据开放共享
Citizen science observation: weekly bird surveys, open and shared data

03 **气候教育与艺术传播**—走进学校、社区与家庭
Climate education and art-based communication: reaching schools, communities and families

04 **低碳文旅与观鸟经济**—无痕观鸟，社区共赢
Low-carbon tourism and the birdwatching economy: leave-no-trace birdwatching, shared community benefit

05 **社区协同**—与渔民共护海岸
Community engagement: protecting the coast together with fishers

06 **国际叙事**—在COP向世界发出邀请
Global storytelling: an invitation to the world at COP31
